

Ogden Elementary School

Building walk Through November 12, 2025

- Additional areas (not in BCS) highlighted for discussion and consideration for future budget or capital projects.
- 1. **Outdoor Courtyard** - repurpose by redesigning this space to hold educational and school wide related events, activities, and celebrations in a more secure location.
- 2. **Cafeteria/Auditorium/Multipurpose Room** – Redesign and construct an updated inviting space for dining, programs and presentations. Consider walls, floors, lighting, HVAC, furniture, stage accessibility, audio and technology. ACM and environmental must be considered.
- 3. **Main Entrance Security Station and Library Entrance** – This area presents unique challenges with space restrictions for daily security operations and main entrance to the Library.

Other project highlights:

- Multiple whiteboards are repurposed in classrooms from HS Science Rooms.
- Building LED lighting changes have been completed by district maintenance department. We can now return one leased Cassone Storage Container.
- Playground installation is completed and waiting for PIP safety surface installation.
- Completed 2nd phase of steam pipe replacement in crawlspace.
